

# YOUNGPLANTS ASSORTMENT 2026

slijkermankalanchoë

*Inspire to Create*

## Introduction

At SlijkermanKalanchoë, specialization means full commitment. We are involved in every step of the kalanchoe journey, from breeding and cuttings production to large-scale cultivation at our own facilities and with trusted partners around the world. With over 40 years of kalanchoe growing experience and 25 years of dedicated kalanchoe breeding expertise, we combine in-depth knowledge with a forward-looking vision.

As a family-owned company with roots dating back to 1946, innovation has always been part of our DNA. What began in horticulture evolved into a strong and exclusive focus on kalanchoe, leading to an internationally operating family business now guided by the third generation.

Our breeding is driven by the needs of growers worldwide. We understand that cultivation conditions, market requirements and consumer preferences vary across regions and climate zones. By working closely with growers and partners around the globe, we develop varieties that perform reliably under diverse conditions.

With an exceptionally broad assortment, we are able to offer the right solution for every grower, every market and every climate. Through the synergy of breeding and growing, we continuously refine our varieties to support efficiency, uniformity and quality. Inspiring growers worldwide to create outstanding results.

Inspire to create.

KALANCHOË

# DIAMOND<sup>®</sup>

The image features three Kalanchoe plants in different colors: orange, red, and yellow. They are arranged in pots on a dark surface. The orange plant is the largest and is in the background. The red and yellow plants are in the foreground. The background is a blurred indoor setting.

For centuries, diamonds have symbolized beauty, purity and eternity. These qualities are reflected in the Diamond<sup>®</sup> double flower collection. Featuring richly filled blooms and exceptional durability, these varieties offer a luxurious appearance combined with outstanding shelf life.

Kalanchoë  
**Supernova®**

Meet Supernova®, a true breakthrough in kalanchoe breeding. Its spectacular blooms consist of multiple flowers fused into one impressive explosion, inspired by the power and beauty of a supernova. With over 50 petals per flower, a diameter of up to 5 cm (2") and an exceptional shelf life, Supernova® delivers an out-of-this-world performance at retail.

# Serenity<sup>®</sup>

The Serenity<sup>®</sup> series features a harmonious range of soft pastel tones. All colors are genetic mutants of one another, resulting in exceptional uniformity in growth and flowering. This makes the series ideal for combining multiple colors in one pot. With a minimal need for growth regulators, Serenity<sup>®</sup> offers reliable and consistent performance.

**SINGLES**

# KALANCHOË DIAMOND®

Derived from the Ancient Greek word *adámas*, meaning “unconquerable,” the Diamond® single flower collection lives up to its name. Carefully selected for strength and resilience, these varieties combine elegant simplicity with outstanding longevity. Their robust nature also makes them perfectly suitable for outdoor use during summer.

# Tiger®

KALANCHOË

The Tiger® Safari collection features three striking single-flowered varieties distinguished by bold contrasts and expressive flower markings. The distinctive flower hearts echo the patterns of wild animals, giving each plant a powerful, natural character that perfectly matches the strength and charisma of the tiger.

# CUT FLOWERS

# Soraya

## KALANCHOE

Inspired by its roots in the ancient Persian Empire, Soraya® series represents elegance and feminine strength. All colors are genetic mutants of one another, resulting in uniform growth and flowering. This makes the series ideal for growing multiple colors together, even in small quantities. Available in a range of delicate pastel shades with excellent vase life.
